

Dear Chairman Powell and Commissioners,

I am extremely disappointed in the quality of election coverage I am able to get for this presidential election.

The "debates" are a farce - they are a press conference with no real content. The content of these "debates" is totally controlled by the 2 major political parties.

The television and radio broadcasters are using the public spectrum. Why doesn't the fcc require them to grant airtime to all candidates - including Mr. Nader and the libertarian candidate ?

Sincerely,

Michael Kriz
